### **DETAILED ACTION**

The amendment filed on August 13, 2009 has been entered. Claims 13, 16 and 21 have been amended, claims 11, 12, 14, 15 and 17-19 have been canceled, and new claims 24-36 have been added. Claims 13, 16 and 20-36 are currently pending.

### ***Drawings***

The replacement drawing received on August 13, 2009 is acceptable.

### ***Specification***

In light of the marked-up copy of the substitute specification submitted as part of applicant's response filed on August 13, 2009, and the statement as to the lack of new matter appearing on page 12 of the response, the substitute specification filed on March 3, 2006 has been approved for entry.

The entry of the substitute specification renders moot the objection to the specification set forth the previous Office action.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. The amendment is necessary to correct a typographical error in claim 28 which would have resulted in substantially duplicate claims. By way of this amendment claims 28-30 now depend from claim 25 as intended by applicant, as can be seen from the remarks appearing on page 13 of the response filed on August 13, 2009.

Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**The application has been amended as follows:**

In line 1 of claim 28 "claim 24" has been changed to --claim 25--.

***Allowable Subject Matter***

Claims 13, 16 and 20-36 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

None of the prior art discloses or renders obvious a drive assembly including a drive housing having a sleeve-shaped projection, and a multi-plate coupling arranged coaxially externally relative to the sleeve-shaped projection and at least partially axially overlaps said sleeve-shaped projection, together with the remainder of the structure as specified in claim 24, and particularly wherein the multi-plate coupling comprises a set of coupling plates which at least partially axially overlaps the sleeve-shaped projection.

Claims 13, 16 and 20-23 each depend either directly or indirectly from claim 24 and are allowable for at least the same reasons.

None of the prior art discloses or renders obvious a drive assembly including a drive housing having a sleeve-shaped projection, and a multi-plate coupling arranged coaxially externally relative to the sleeve-shaped projection and at least partially axially

overlaps said sleeve-shaped projection, together with the remainder of the structure as specified in claim 25, and particularly wherein the drive input shaft is by two axially spaced rolling contact bearings in the sleeve-shaped projection of the drive housing, and the multi-plate coupling axially overlaps at least one of the rolling contact bearings.

Claims 26 and 27 each depend either directly or indirectly from claim 25 and are allowable for at least the same reasons.

None of the prior art discloses or renders obvious a drive assembly including a drive housing having a sleeve-shaped projection, and a multi-plate coupling arranged coaxially externally relative to the sleeve-shaped projection and at least partially axially overlaps said sleeve-shaped projection, together with the remainder of the structure as specified in claim 31, and particularly wherein the coupling output part of the multi-plate coupling comprises a sleeve which, via a toothing, is connected in a rotationally fast way to the drive input shaft and is axially secured by a securing ring against an inner bearing race of a rolling contact bearing at an end of the coupling.

Claims 32-36 each depend either directly or indirectly from claim 31 and are allowable for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
